WHEN “ORGANIC” REALLY MEANS “ORGANIC”

The Global Organic Textile Standard (GOTS) is the worldwide leading textile processing standard for organic fibers, backed up by independent certification of the entire textile supply chain.

From the harvesting of the raw materials to the labelling, the GOTS® certification is a credible assurance to the end consumer of an organically produced product.

DON'T JUST TELL US, PROVE IT

The unfortunate reality is that without a certification from an organization such as GOTS® these "organic" claims from brands are largely baseless. The rampant greenwashing tactics in the apparel industry are well documented. As a society we should demand transparency, authentication, and certification from our suppliers.
