

Our Certifications

No Sweatshops

Our mills adhere to something called SA 8000 for Social Accountability Management System, and FLO (Fairtrade Labeling Organizations) which are dedicated to alleviating poverty afflicting the majority of the world's farmers and workers by setting and certifying the compliance of stringent, socially conscious production

American Grown Supima®

The SUPIMA trademark is the consumers' guarantee that the branded textile product they are buying contains the finest U.S.- Grown Pima Cotton. By licensing the entire supply chain SUPIMA provides added guarantee to customers that SUPIMA trademarked goods are made with 100% U.S. Pima cotton of the highest quality.

Extra Long Staple Cotton

All Supima cotton is ginned on "roller gins" that operate at much lower speeds in order to gently separate the fiber from the seed. In contrast, regular cotton is processed by high-speed "saw gins" which use a more aggressive system to break the fiber away from the seed.

OEKO-TEX®
CONFIDENCE IN TEXTILES

OEKO-TEX® Standard 100

If a textile article carries the STANDARD 100 label, you can be certain that every component of this article, i.e. every thread, button and other accessories, has been tested for harmful substances and that the article therefore is harmless for human health.

New Zealand Raised Merino Wool

Our Merino Wool comes from merino sheep raised on a farm in New Zealand. The farm upholds our mutual goals of maintaining animal welfare, environmental sustainability, and quality fibers. As a naturally regenerative fabric that breaks down in water and soil, merino wool is perfect for making responsible and high-quality apparel.

Wind Mill Powered Production

Our factories use Suzlon 1250 wind power to encourage green power and continue leadership in environmental production.

WRAP Certified Social Compliance

WRAP is an independent, objective, non-profit team of global social compliance experts dedicated to promoting safe, lawful, humane, and ethical manufacturing around the world through certification and education.

GOTS Organic Cotton

The Global Organic Textile Standard (GOTS) is the worldwide leading textile processing standard for organic fibers, backed up by independent certification of the entire textile supply chain.
